Important Tax Information

Tax credits are available through the Oklahoma Equal Opportunity Education Scholarship Act (68 O.S. § 2357.206), as expanded by SB 1080. Credits are nonrefundable and subject to annual limits of $1,000 for single filers, $2,000 for married couples filing jointly, and $100,000 for qualifying business entities. A $25 million statewide annual cap and a $200,000 annual limit per public school district may apply. The BPS Foundation is the authorized designee of qualifying contributions as approved by the Bethel Public Schools Board of Education. Credits may be reduced or suspended if applicable limits are exceeded. Unused allowed credits may be carried forward for up to three years. The 75% credit requires a written two-year commitment of equal annual contributions. Tax credits are subject to eligibility requirements and Oklahoma Tax Commission approval and allocation. Examples are for illustrative purposes only. ***Consult your tax advisor to determine eligibility and applicable tax benefits.***
